

Padula Institute of Vision On-Line Video Seminars

Neuro-Visual Processing (Optometric) Rehabilitation and Visual/Postural Dysfunction Following a Neurological Event: A Three Part Series

William V. Padula, O.D., F.A.A.O., F.N.O.R. is a graduate of Pennsylvania College of Optometry and is a fellow of both the American Academy of Optometry and the Neuro-Optometric Rehabilitation Association. Dr. Padula was the founding chairman of the American Optometric Association Low Vision Section and founding president of the Neuro-Optometric Rehabilitation Association. Dr. Padula's extensive research resulted in his discovery of Post Trauma Vision Syndrome and Visual Midline Shift Syndrome. He has authored books and numerous articles and has consulted and lectured extensively throughout the United States and abroad. He is currently the director of the Padula Institute of Vision in Guilford, Connecticut.

Neuro-Visual Processing (Optometric) Rehabilitation and Visual/Postural Dysfunction Following a Neurological Event: A Three Part Series

Raquel M. Munitz, M.S., COVT, is the Administrative Director and Vision Therapy Director of holds a Masters degree in educational psychology from the Universidad Nacional Autonoma de Mexico. She is certified in Neurodevelopmental Treatment and is a Certified Optometric Vision Therapist (COVT). She is a recipient of the Advancement in Science Award from the Neuro Optometric Rehabilitation Association (NORA) and received recognition as Psychologist of the Year (2005) from the Alumni Association of the Universidad Nacional Autonoma de Mexico. She is currently in private practice.

Neuro-Visual Processing (Optometric) Rehabilitation and Visual/Postural Dysfunction Following a Neurological Event: A Three Part Series

Topic Index

Part 1:

Introduction

Goals for Levels I-III

Light and the Eyes

Visual Neocortex

Part 2:

Ambient Visual Process

Post Trauma Vision Syndrome

Visual Mismatch

Focal Binding

Part 3:

Focal Binding

Vision, Posture and Movement

Neuro-functional Development

**Basic Components of Movement
and Posture**

Part 4:

Vision and Development

Base of Support

Observation of Posture

Neuro-Visual Processing (Optometric) Rehabilitation and Visual/Postural Dysfunction Following a Neurological Event: A Three Part Series

Topic Index

Part 5:
The Ambient Process and
Proprioception
Posture and Visual Midline Shift
Syndrome
Prisms

Part 7:
Postural Analysis

Part 9:
NVPT Activities

Part 11:
NVPT Activities

Part 6:
Prisms
Postural supports and external
control
Video Analysis of Posture

Part 8:
NVPT Activities

Part 10:
NVPT Activities

Part 12:
Activity Review
